Plastics, Rubber and Composites Processing and Applications **15** (1991) 281–283

CONTENTS OF VOLUME 15

Number 1

Guest Editorial
Thermoplastic composites: between whitegoods and aerospace . . . 1
F. N. COGSWELL, G. CUFF & C. R. GORE (UK)
The production and properties of the die-drawn biaxially oriented polypropylene tubes 5
A. K. TARAIYA & I. M. WARD (UK)
Simultaneous determination of torque and state of cure of a thermoset composite by experiment and modelling of the process 13
A. EL BROUZI, M. DURSAPT & J. M. VERGNAUD (France)
Use of inorganic fillers to reduce the flammability of polymers . . . 19
R. J. ASHLEY & R. N. ROTHON (UK)
Rheology of short Kevlar fibre-reinforced thermoplastic polyurethane . . 23
S. K. N. KUTTY, P. P. DE & G. B. NANDO (India)
Particle break-up and coalescence in heterogeneous PP/EPDM blends; effect of particle size on some mechanical properties 31
BÉLA PUKÁNSKY, IVÁN FORTELNÝ, JOSEF KOVAŘ & FERENC TÜDŐS (Czechoslovakia)
Rubber insulation compounds based on ethylene propylene rubber chlorosulphonated polyethylene rubber blends for cables 39
S. BHAUMIK & N. K. DATTA (India)
Thermomechanical analysis of cracked polymeric specimens 47
GIANLUCA MEDRI & RENATO RICCI (Italy)
Anisotropic design analysis of roll-drawn polypropylene 53
L. A. SINCLAIR & D. McCAMMOND (Canada)
Book Reviews 61
Forthcoming meetings 65

Number 2

Guest Editorial
A new era for rotational moulding 71
R. J. CRAWFORD (UK)
Research into polymer melt die swell during extrusion 75
LIANG JI-ZHAO (People's Republic of China)
A study of the properties and structure of deep-drawn polymer cups . . 79
Y. W. LEE (Hong Kong)
Reactive blending of polyethylene and scrap rubber 87
J. R. MICHEL DUHAIME & WARREN E. BAKER (Canada)
Microstructure development in blow molded amorphous engineering plastics . 95
JEONG S. YU & DILHAN M. KALYON (USA)
Testing of viscoelastic function interconversion methods for use in engineering design. I. Formulae to interconvert the transient functions (relaxation modulus and creep compliance) and the corresponding dynamic functions . . . 103
A. MACCHETTA & A. PAVAN (Italy)
Preparation, structural characterisation and electrical properties of zinc acrylate/styrene copolymers 115
J. R. ALLAN, J. G. BONNER, K. TURVEY, D. L. GERRARD & J. BIRNIE (UK)
Effect of processing on the properties of poly(ether ether ketone) . . . 119
A. ARZAK, J. NAZÁBAL & J. I. EGUIAZÁBAL (Spain)

Plastics, Rubber and Composites Processing and Applications (**15**) (1991) — © 1991 The Plastics and Rubber Institute, England. Printed in Great Britain.

Evaluation of controlled release styrene butadiene rubber formulation as a source of nitrogen on growth and yields of tomatoes under water culture conditions 125
F. M. HELALY (Egypt)
Forthcoming meetings 131

Number 3

A USA approach to combustion toxicity of cables 137
STANLEY KAUFMAN, JAMES J. REFI & ROSALIND C. ANDERSON (USA)
The influence of flow path length on the stiffness and toughness of some engineering thermoplastics 145
R. A. CHIVERS, D. R. MOORE & P. E. MORTON (UK)
The cobalt (II), nickel (II), copper (II) complexes of 2-methylbenzothiazole and 2-(methylthio)nicotinic acid and a study of their performance as colouring materials for poly(vinyl chloride) and polystyrene 155
J. R. ALLAN, A. RENTON, W. E. SMITH, D. L. GERRARD & J. BIRNIE (UK)
Blistering of GRP laminates in water: 1. Characterization and classification of blistering 161
FANGPING CHEN & ARTHUR W. BIRLEY (UK)
Blistering of GRP laminates in water: 2. Further study of the factors affecting blister formation 169
FANGPING CHEN & ARTHUR W. BIRLEY (UK)
How to get more information from a standard stress–strain curve of plastics . 177
HELEN DOUBRAVSZKY (Hungary)
Film processibility of PET and the influence of low molecular weight fractions . 183
JIAYU GUAN, XIAN ZHANG, ZIMIAN MA & MAO XU (People's Republic of China)
Effect of filler blend composition and temperature on the properties of electrically conductive rubber composites 189
P. K. PRAMANIK, D. KHASTGIR & T. N. SAHA (India)
Forthcoming meetings 195

Number 4

Guest Editorial
PVC '90 199
MARIANNE GILBERT (UK)
Relationship between fracture toughness and other material properties of PVC-u pressure pipes 201
L. R. HOLLOWAY (The Netherlands) & A. J. NAAKTGEBOREN (UK)
PVC/plasticizer compatibilty. III: Dynamic mechanical and tensile properties . 207
LUIS RAMOS-DE VALLE (Mexico) & MARIANNE GILBERT (UK)
Matching blowing-agent decomposition with plastisol fusion 213
J. H. EXELBY (UK)
Blood response to plasticised poly(vinyl chloride) 221
C. R. BLASS, M. S. BIGGS, C. JONES, J. M. COURTNEY & G. D. O. LOWE (UK)
The use of fracture mechanics to describe the impact strength of PVC window profiles 229
D. J. CALVERT, B. HAWORTH (UK) & R. C. STEPHENSON (Belgium)
Controlled stress rheometry in the prediction of plastisol behaviour — what a Brookfield doesn't tell you 243
T. A. RODEN (UK)

Modelling the effect of heat treatment on the cure behaviour of natural rubber and chlorosulphonated polyethylene compounds 249
J. BUTLER & P. K. FREAKLEY (UK)
Positive temperature coefficient effects in the electrical resistivity of carbon black-filled chloroprene rubber 257
PER BENGTSSON, CARL KLASON, JOSEF KUBÁT & DOUGLAS H. McQUEEN (Sweden)
Modelling the process of diffusion–evaporation of a liquid from a polymer sphere, by considering the shrinkage of the sphere 263
A. BAKHOUYA, J. BOUZON & J. M. VERGNAUD (France)
Short Communication
Correlation between the pre-exponential factor and the activation energy for electrical conductivity in monomers and polymers containing the 4-vinyl-pyridine molecule 273
K. TURVEY & J. R. ALLAN (UK)
Forthcoming meetings 277
